

Big Dog Shred Bins USA

Big Dog Shred Bins USA to Offer Shredding Resources to the Document Destruction Industry

In an effort to address the diverse needs of the shredding industry, Big Dog Shred Bins USA Inc is offering a Resources Page on their corporate website.

Paper Shredding Industry
Resources

Lakeside, CA, January 27, 2012 — In an effort to provide paper shredding companies with the resources necessary to gather information about the document destruction industry, Big Dog Shred Bins USA has added an extensive “Resources” section to their corporate website. Resources will include information on the different types of shredding trucks available, start-up tips, on-site shredding, off-site shredding, software and insurance.

Big Dog Shred Bins USA is a manufacturer of shredding consoles and also offers shred carts and shred bins for paper shredding companies offering document destruction services. Big Dog Shred Bins USA is based in Lakeside, California.

“We felt that it was important to not only provide affordable options for quality shred bins, but also the resources necessary to be successful in this industry”, states Danielle Levac, Sales Manager of Big Dog Shred Bins USA. “Many shredders have told us that they appreciate a centralized location to find useful resources. By providing links to informative articles and great associations like NAID (National Association for Information Destruction), we are helping the shredding companies to grow”.

The Resources Page of the Big Dog Shred Bins USA website will include links to information across the internet, providing beneficial material for starting up in the document destruction industry as well as information for driving growth for existing businesses.

“By providing links to valuable information, we are sticking with what we do best, and that is manufacturing shred bins”, states Levac. “We are simply providing links to information which our customers will find invaluable for succeeding in this industry. We realize that we win when our customers win, so we want to help them in any way we can.”
